

Genie In The Bottle

*words and music
by John Dandrea*

This is the kind of song that is just plain fun for me, both to write and to play. This dreamy style of song is my favorite to try to capture and record, and I was pleased with the way it turned out. Many years went by before I assembled the right props and suitable model for the cover photos, but now that I have the kind of "outer wrapping" that I wanted for this song, I'm especially pleased because I now feel it's a "complete" project.

This song is dedicated to that one and only Jeannie, the timeless beauty of Barbara Eden, and the TV show which provided me with such inspiration and joy when I was growing up. Perhaps more than any other form of fantasy, the escapades of this lovely little Genie in the Bottle would influence me for many years to come and inspire many magical tunes and lyrics.

Thank you Barbara, for your ageless smile and timeless, beautiful magic!

-John
