

# Genie In The Bottle

*words & music by  
John Dandrea*

**When I was young,  
I used to dream of the genie in the bottle  
and I would wish that she were mine  
she'd hear me whisper softly in the night  
and she'd come to spend some time.....**

*(female voice, the genie sings - )*

**Now you're here beside me in the night,  
put your arms around me and hold me tight  
I've waited for a thousand years  
just to be with you, tonight.....**

**You are my genie,  
my midnight Lady  
you are magic in my eyes  
and when you show me, all the love you have for me  
you've got me hypnotized.....**

*(female voice, the genie sings - )*

**Now you're here beside me in the night,  
put your arms around me and hold me tight  
I've waited for a thousand years  
just to be with you, tonight.....**

**No matter how far,  
the distance between us  
with your magic we are one  
softly I'll call you from wherever you've been to  
our love has just begun.....**

*(female voice, the genie sings - )*

**I've waited for a thousand years  
just to be with you, tonight.....**
