

The Good Times

From the release Our Little Secret ©2003 Michael Heaton

Got a wine stain on your dress the night you smoked those cigarettes
and threw up on the steps outside the prom
Well you were trying out your wings but couldn't figure out the things
so you spread them out and slept out on my lawn

Supposed to be the best day of your life
But someone cleared the table up before you got your pie-I
I want to know
Where'd the good times go

Parents knew just what I'd need so college was the way for me
I thought that's how I'd be what i could be
Five long years was short and sweet - living like I'm on the street
and now your pizza comes with my degree

Something that they taught me wasn't right
Just a set of rules to keep you down inside-I
I want to know
Where'd the good times go

Bridge/solo

Heath quit school to join a band he said they just don't understand
a ticket to the top yeah that's the plan
But somewhere he misplaced his soul and lost his faith in rock'n'roll
He only talks about it now and then

He says everything they tell you is a lie
Just an advertisement so they can catch your eye-I
I want to know
Where'd the good times go
Yeah everything they tell you is a lie
Just an advertisement to catch your little eye-I
I want to know
Where'd the good times go
Where'd the good times go

If It's So Easy

From the release Our Little Secret ©2003 Michael Heaton

I've spent so much time trying to hang my hat on stars
Believing good things come to those who just work hard
And every time I stumble you just let me know
After we dust the dirt off I get up and go

I burned half my life trying to feel my way around
Doing the best I can with everything I found
But sometimes I find my best just isn't good enough
'cause I can't smooth the bumps to keep from tripping up

If it's so easy, why do we fall out like this
If it's so easy, tell me everything I missed
If it's so easy, it should all work out somehow
If it's so easy girl why can't we do it now

It always seemed like things were going how we planned
The longer things drag on the more that you demand
And at some point the strongest bonds begin to break
When we start thinking that it's been a big mistake

If it's so easy, why do we fall out like this
If it's so easy, tell me everything I missed
If it's so easy, it should all work out somehow
If it's so easy girl why can't we do it now

Well I've spent so much time trying to hang my hat on stars
Trying to find the map just to figure out where we are
And I guess I never listen like I should
I'd give you back the time you lost if I could

If it's so easy, why do we fall out like this
If it's so easy, tell me everything I missed
If it's so easy, it should all work out somehow
If it's so easy girl why can't we do it now

Our Little Secret

From the release Our Little Secret ©2003 Michael Heaton

Don't tell anybody what it is that we talk about
Something about being with you just makes it all come out
At least we've got somewhere to go when everything is laying us low
And no one outside of us will ever know

You tell me your secrets makes me want to tell you mine
Anything you want from me darling that'll be just fine
And we'll just keep it all to our selves I'm not telling anyone else
Anything you say to me now I'm saving for myself

Our little secret
Our little secret
Our little secret

Well I know what scares you I know what it is makes you bleed
And I could spend the rest of my life with you talking to me
Just hanging with you all day long Playing you my brand new songs
And you and me getting along and on and on

Our little secret
Our little secret
Our little secret

Solo

Don't tell anybody what it is that we talk about
Something about the dark of our room makes it all come out
And I'll just keep you all to myself I ain't sharing you with anyone else
Anything you say to me now I promise I won't tell

Our little secret
Our little secret
Our little secret

Our little secret
Our little secret
Our little secret

Ring Ring Ring

From the release Our Little Secret ©2003 Michael Heaton

There's a ring ring ring on my telephone
I've got an answering machine so I let it go
I don't want to talk tonight
I need a little time alone

That's the thing thing thing that I'm sure I know
You think you're smart and you let it show
I don't want to fight tonight
I need some time to let it go

I'm not sure why it is but we seem to breakdown
Playing games like you do but remember
Everything comes around

There's a sting sting sting on my heart you know
Cause we get so close now you're letting go
I don't know i/f I should try
You need a little time alone

Bridge

Been so hard on myself - that I had to find somebody
This is bad for my health - yeah I need someone that could really love me

solo

I'm not sure why it is but we always fall down
Playing games like you do but remember
Everything comes around

There's a ring ring ring on my telephone
But I don't need a fight so I let it go
I don't want to talk tonight
I need a little time alone
Some time alone- some time alone
I need a little time alone
I need a little time alone

Over The Hill

From the release Our Little Secret ©2003 Michael Heaton

Well darling I've loved you for a long time
I bet we've got a couple years left to kill
A little bit older but we're both fine
You're chasing those rainbows with me still
and our doing days aren't done - well honey the best is yet to come
Over the hill

Well all of these years you've been my angel
And you've lightened my heavy load
It doesn't really matter if we get gray dear
Just lessons we've learned and proud to show
and you're the one who understands - walking together hand in hand
Over the hill

Well thek engine might be noisy little darling
but the wheels still turn around
And it ain't the latest model but she runs good
and it gets us round this town

solo

In the days when we were younger it was nothing
used to stay out all night long
Now our backs and knees are aching every time a little
rain cloud comes along

When I look out on our horizon
Wondering what we will become
Never gonna sit around feeling sorry
There's plenty of places left to run
yeah our doing days aren't done - honey the best is yet to come
Over the hill
Over the hill
But honey we're not over the hill
Over the hill

Say It In Spanish

From the release Our Little Secret ©2003 Michael Heaton

There's some words in Spanish that mean I love you
So if I said Te amo
I believe you'd understand i was saying I love you
If I said it in Spanish
If I said it in Spanish

I thought you knew how much I need you
I haven't said but thought it showed
and I believe you'd understand I was trying to tell you
By the way that it showed
By the way that it showed

Well lately doors have been left open
And some things I guess I've never said
After all this time I still keep hoping
That you listen with your heart andá not your head

There's a phrase in French that means I love you
And if I said *je t'aime*
I believe you'd understand I was saying I love you
If I said it in French
If i said it in French

Solo

Well lately doors have been left open
And some things I guess I've never said
After all this time I still keep hoping
That you listen with your heart and not your head

There's a phrase in Spanish that means I love you
So if I said Te amo
I believe you'd understand I was saying I love you
If I said it in Spanish
If I said it in French
If I said it in Italian
If I said it in German
If I said it in Swahili
If I said I love you

Wildflower

From the release Our Little Secret ©2003 Michael Heaton

Took your roots in the shade of the family tree
A little sunshine and rain is all you'd need
Pretty as a picture stretching for the sun
Who knows how high you'd grow 'fore you were done
Oh wildflower - wildflower

Butterflies and rainbows things you'd understand
Playing your little part in a bigger plan
When the summer was over and the winter was coming on
One hard freeze and all your leaves were gone
Oh wildflower - wildflower

When I think about love I think about you
Amazed that something so small could tell it so true
And the world's a better place for having known you
I wish that you could stay but heaven owns you
Oh wildflower - wildflower
Wildflower - wildflower

©2003 Michael Heaton (ASCAP)

Souvenirs

From the release Our Little Secret ©2003 Michael Heaton

Perfect with your imperfections
Pretty though you think you're not
But I know what you've got
It's why I like you

Standing in your front porch window
I'll pick you up on Friday night
You know I won't be late
We've got a date

Well the world outside your window seems to fall into your tears
And you're locked inside your room with all your fears
And souvenirs

Well I just want to be your boyfriend
I know no one else could ever understand you like I do
Yeah girl it's true

Well you've turned out to be a habit
I picked you up
And I don't think that I could put you down
I need you around

Yeah the world outside your window seems to fall into your tears
And you're locked inside your room with all your fears
And souvenirs

Well your as sweet as mamas homemade apple pie has ever been
And I just want to see the sunlight in your eyes light up again
and again and again

solo

Well the world outside your window seems to fall into your tears
And you're locked inside your room with all your fears
And souvenirs

In The Middle

(Y'amo dei la di Y'amo dei la da)

From the release Our Little Secret ©2003 Michael Heaton

Well I haven't been the first I won't be the last
You know I'm not the worst and I'm not the best
I'm less wine and roses more beer and skittles
And I'm just happy doing my time here in the middle

Y'amo dei la di Y'amo dei la da
Lord the ocean's so big and my boat's so small
The only thing I need
Is everything I've got
I'm just happy being me and life rolls on

Now some folks think that money equals happiness
Me I've never been one to impress
I guess I'm some sort of negative success
And I'm just struggling by like all the rest

Y'amo dei la di Y'amo dei la da
It's the little things in life that turn me on
Like when she kissed my cheek
Or when she mows the lawn
I'm just happy being me and life rolls on

Solo

You never can judge a man by the clothes he wears
You never can judge a person by the cut of their hair
No I've finally figured out what it's gonna be in the end
The only true measure of a man's gonna be his friends

Y'amo dei la di Y'amo dei la da
Lord the ocean's so big and my boat's so small
The only thing I need
Is everything I've got
I'm just happy being me and life rolls on
I'm just happy being me and life rolls on
I'm just happy to be here and life rolls on

Now Or Never

From the release Our Little Secret ©2003 Michael Heaton

I try to live with the courage of conviction
Even though there's times I do not know
Because sometimes fear can paint an ugly picture
It grabs you by the neck
And never lets you go

I've been surprised when I've been afraid of changes
Holding on to everything so tight
Until I'm finally tired of my own aching
Well change can't all be bad
Even the day turns into night

It's now or never
Life's a train on a one way track
Take your chances make your choices
Climb aboard and don't look back
It's not forever
So just remember where you've been
'cause when the train pulls from the station
Today will never be again
It's now or never

Nothing worth having ever comes easy
Work for what you want or you can wish for more
So many of us acting like we're sleeping
Yeah dreaming that a life
Is gonna knock on our front door

It's now or never
Life's a train on a one way track
Take your chances make your choices
Climb aboard and don't look back
It's not forever
So just remember where you've been
'cause when the train pulls from the station
Today will never be again
It's now or never

So why do I wait to find my place in the world knowing on day fate will break my stride
It really won't matter if I fell a couple times- the best I can do right now is try

Solo

Repeat Chorus

©2003 Michael Heaton (ASCAP)

Here It Comes

From the release Our Little Secret ©2003 Michael Heaton

We've got a blanket underneath the stars
A cooler in the back of the car
Got a reason because we're young
We've got each other on a lonely night
Watching all the satellites
Talk of great things
We haven't done

Well it's alright if you feel scared
It's alright to be lonely
And I don't mind if you don't care
All I want is to be the only one for now
Here it comes darling

You know there's nowhere that I'd rather be
Then when you're sitting here next to me
You're the sweetest thing I've found
And I would never want to tell a lie
About something that I know is right
Got no reason to let you down

And it's alright if you feel scared
It's alright to be lonely
And I don't mind if you don't care
All I want is to be the only one for now
Here it comes darling

Solo

We've got a blanket underneath the stars
A cooler in the back of the car
Got a reason because we're young
We've got the moonlight flutter on the lake
And a moment that was there to take
Talk of great things we haven't done

And it's alright if you feel scared
It's alright to be lonely
And I don't mind if you don't care
All I want is to be the only one for now
Here it comes darling
Here it comes

©2003 Michael Heaton (ASCAP)

Here It Comes

From the release Our Little Secret ©2003 Michael Heaton

Long time no see blue eyes
What's the story blue eyes
Well you still look great haven't changed a bit You did something with your hair
Well it's been so long forgive me if I stare

Well what's up with you blue eyes
I've missed you too blue eyes
Did some dreams come true has your heart been broke were you crying in the rain
Tell me what's been happening since you moved away

Bridge:
Well you know me
I'm still trying to get it together
Happy to be
I don't think I'm going to live forever

Solo

How's your new guy blue eyes
Does he still try blue eyes
Does he treat you right does he still love you how'd I let you get away
Well you don't know what you've got until things change

We had some fun blue eyes
We were so young blue eyes
When we spent the evenings on your porch till our summer slipped away
Well it's all worked out I guess we can't complain

Repeat Bridge:
Well you know me
I'm still trying to get it together
Happy to be
I don't think I'm going to live forever

I'm still sorry blue eyes
I'm so sorry blue eyes
Long time no see blue eyes
