

I proudly play Prominy virtual instruments, especially LPC and SC Electric Guitar which I massively used on my brand new album "Dragon Fire". You can enjoy some amazing guitar performances using SC Electric Guitar ... you'll be blown away listening for that stunning and powerful guitar sound made by Prominy! The new SR5 Rock Bass really astonished me, it completes my electric strings setup. Of course, the awarded PCP-80 Electric Piano is firmly embedded in my equipment. Prominy offers high-top-class virtual instruments for any kind of musicians, songs and styles. Thanks to Prominy, my music production definitely moved a step ahead!
