

FabFilter TWIN2

www.fabfilter.com

FabFilter has released FabFilter **TWIN2** virtual synthesizer! Listening for the TWIN2 "Default Sound" gave me immediately the right and perfect idea how Virtual Synth has to sound nowadays.

The perfect mix between vintage and modern synthesizers...from the fat and rich analog sounds to the bright and sparkling digital sounds, all my requests are totally satisfied, any kind of sound atmosphere and music genre are absolutely under my control!

Last but not least, parameters customization and graphic user interface are so powerful and friendly that I can perfectly feel a real hardware synthesizer.

TWIN2 is one of the most great, innovative and elegant virtual synthesizer now available!

A handwritten signature in black ink, reading "M. S. Thovior". The signature is written in a cursive, flowing style.
