

---

Finally I found the Real Acoustic Guitar plug-in! RealGuitar is the total solution for all my productions.

RealGuitar stunning high-quality sound, human approach, accurate response and inimitable playing are incredible! Strumming, arpeggios, solos, everything I need are ready-to-play! Any guitar sound detail, technique and effects are under my control; in a few steps I can perfectly record my guitar accompaniment or solo, the only thing I miss is to talk to my guitar player...

The pattern-library is absolutely powerful and impressive tool! I can focus on my ideas and my music, RealGuitar will play exactly what I need without losing precious time, so important when my creative moments run without interruption and I need to fix them immediately on my sequencer.

Whatever I play on my keyboard, RealGuitar gives me back the most realistic guitar performance I never heard.

RealGuitar is one of the most useful, fantastic and essential Real Instrument for all my productions!

A handwritten signature in black ink that reads 'M. S. Thovier'. The signature is written in a cursive style with a long, sweeping underline.
