Brien Sweet has been performing music in front of live audiences for over ten years. He has a unique sound made from his honest, vulnerable voice, and whimsical guitar playing style. In a solo acoustic performance, he usually plays a mix of crowd pleasing Classic Rock and Pop tunes and a few of his own stunning originals. He's been seen all over NH and MA performing at bars, lounges, fine dining restaurants, coffee houses, college campuses, and private functions. If one voice and one guitar is not enough sound for your event, Brien also has the availability to perform talented percussionist Jon Chartier as a duo.

Being an avid lover of music, Brien also offers DJ services for weddings and private functions. He will work with you to build your perfect playlist for that magical day. Playing all your favorites for the wedding party and guests to dance to, and omitting any songs that would spoil the moment. Brien can also accommodate your company function, or bust out favorite reminiscent tunes at your loved one's 40th birthday party.

Also as an audio enthusiast, Brien offers audio recording services. He has a fully functional portable recording studio that can be used to record your band's live show or studio recording.

*"Brien Sweet was extremely professional in his overall performance as our DJ for our August 2009 wedding in Wolfeboro, NH. The wedding was a true success due to the entertainment Brien provided. It is not every day that you can find a DJ that also is a true vocalist, guitarist and will coordinate with your wedding colors!"*

*Missy Hart (Bride)*

*"His fretboard work is concise and bold while his singing is emotive and genuine."*

*Metronome Magazine July '07*

*"His voice is something new and has a bit of New England accent that makes it individual."*

*WPI Coffeehouse Review Jan '07*
