surf's up!

Performing solo, as a duo, or with a rockin' trio, **LEONARDO's** concerts are a real live music event. Audiences become part of the show as they sing, do a dance step, and learn a hand sign. “Music allows kids of all abilities to explore their creativity and discover the talents they can share with the world,” states Leonardo.

With fun props and a colorful set, his concerts are a pep rally, rock 'n' roll show, and beach party all on one stage!

special kids

Inspired by his little brother Mario, a young man with Down Syndrome, **LEONARDO's** message of Diversity and Tolerance is perfect for schools and organizations with Anti-Bullying/Character Development campaigns. His recordings feature a chorus of youths, who happen to have Down Syndrome, singing songs that are a celebration of possibilities for kids, parents and caregivers.
