

Maria Lena & Gerry Stafford

Max: Meaning - Its Latin root meaning "Great" ...

Ex: Meaning - The prefix ex- comes from Latin ex-, e-, meaning "out of, from."

We humbly pay tribute to some of the greatest classic rock of our past. We play music that came out of the most memorable and best musicians of our time..."our lives".

We are...

Gerry Stafford on Guitar, Mandolin, Keys and Vocals and Maria Lena on Vocals, Flute, Autoharp and Hand Percussion and a little Keyboard.

We are from Medford, MA...Gerry is from "The Gerry Stafford Band" formerly "GSB". Some might also remember him from a band called "Seth." Maria Lena is formerly from "Synthesis" and "Full Moon" and a few acoustic duos here and there. Now together collaborating and creating something that is magical and very special, doing Acoustic Classic, Progressive, & Original Rock.

"We are doing exactly what we want to do, play the music that we love and at the same time set ourselves apart from other acoustic duos. We're different. We bring out the songs that surprise. When we see friends singing along, tapping their feet, sometimes get up and dance, we know we've done our job! To be able to play the music we love, share with others and bring friends together, that is a gift for everyone."

"Once in awhile a band comes along, and while the songs are familiar, the sound is unique, and that's us..."
