

Peter Apel

“I’ve Got a Dinosaur on My Head!”

A Show of Music, Magic, and Fun

Peter is a Bay Area music artist, magician, dad, and creator of the music CD “I’ve Got a Dinosaur on My Head!” - a collection of original songs enjoyed by kids, families, and classrooms everywhere.

Peter offers programs for libraries, preschools, elementary schools, fundraisers, birthdays and other special events. Each performance is tailored to the age and theme of the program as well as the size of the venue, and each performance includes Peter's special blend of music, magic, and humor delivered with unique care and respect for the kids. For a preschool circle time, additional movement songs such as "Walking in a Circle" or "Big Locomotive" may become part of the program (where room space permits), or Peter may read (or sing) original stories to the kids in his famous engaging style.

For large groups and concerts, Peter warms up kids' and caregivers' vocal chords (sort of) and leads them in singing songs together. In all cases, there is a little something to learn (examples: “take care of musical instruments” or “bananas have fiber and potassium”), and you'll experience the magic that results when enthusiastic young voices join in laughter and song.

Peter will work with you to arrange a great show that fits your budget. For more information, or if you would like to have Peter perform at your school event, fundraiser, or other special occasion, please contact him directly at:
