

Miss Quincy

Miss Quincy's Got a Smokin' New Album and a Hot New Band

Like The Devil Does, Miss Quincy's second full length album is a moody collection of songs filled with dirty guitar licks, sweet gospel harmonies, swampy grooves, and stories of old time deal breakers. Miss Quincy and producer, Canadian roots & blues legend Tim Williams, set out to create an album with the gritty sound of tube amps, a tight rhythm section, and a band playing live-off-the-floor. Good musicians playing good music, it's the oldest trick in the book. A natural evolution from her debut album ***Your Mama Don't Like Me*** (*Folk/Traditional Recording of the Year*, 2011 BC Indie Awards), this new record takes Miss Quincy's signature vocal prowess, her love affair with the electric guitar, and song-writing skills into new-found down and dirty territory. ***Like The Devil Does*** is both 4am at the warehouse and the Sunday morning after.

This year also marks the debut of Miss Quincy's smokin' new band **The Showdown**. Featuring upright bass and drums, these ladies are armed with attitude, killer musicianship, and are without a doubt the hottest all-girl rhythm section around. Miss Quincy doesn't fit the classic girl singer/songwriter mold and The Showdown isn't your average all-girl band. You won't find them singing pretty pages out of their diaries, instead you'll find them getting down and rocking out with raunchy electric roots & blues. Unsuspecting audience members may find themselves suddenly shaking it on the dance floor, shouting out inappropriate comments, and buying the ladies rounds of drinks. Miss Quincy & The Showdown have never played a boring show and never intend to.

Coming together from the far reaches of BC and Alberta, the band currently calls the road its home. Hitting the highway hard for 8 months of solid touring this year, The Showdown will be joining Miss Quincy for her 3rd tour of the UK and Europe as well as a cross Canada tour that will include many appearances on summer festival stages.

"A definite star for the future" - **Ralph McLean, BBC Radio**
