Dear Mr. Wilson

My name is Javon Fleming. I am seventeen years old and I go to Providence High School. I have seen your ad on Myspace about 'With These Hands Mix Academy' and I just wanted to know if I could join the academy. The reason I would like to join the academy is to become a better person in life and achieve my goals in life. The main reason is because I am doing my paper on music producing and I need a mentor to help me with the paper.

I found 'With these hands Mix Academy' to be a successful learning experience. Not only for my junior paper but in life as well. I have high expectations in life that I want to complete. With the help from the mix academy I know that my career will conduct a well and profitable sensation.

I look forward to joining the academy and making new friends.

Sincerely Javon Fleming
